

Samsung in Healthcare

Deliver premium-quality, patient-centric care with seamless efficiency

Deliver premium-quality, patient-centric care with seamless efficiency

Best practices

Sydney hospital, Australia

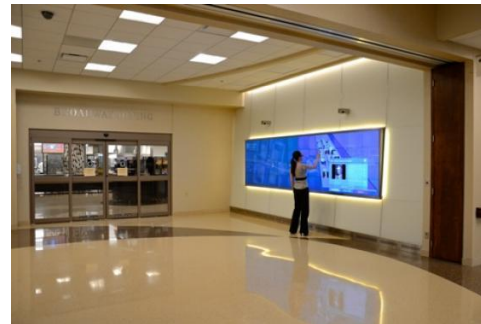

Virtual desktop infrastructure to improve patient services

“What was important for us was providing our clinicians easy and unobtrusive mobile access to technology that they could leave and come back to as necessary.”

John Hoang, Senior Systems Engineer, Sydney Adventist Hospital

WESTMED MEDICAL GROUP, SUA

Samsung Video Wall Solution Provides “Visual Therapy” for WESTMED Patients

“In a space like WESTMED, the solution wasn’t just about the look and feel of a new office, it was about the whole healthcare experience.”

– **Sam Losar**, President of YCD Multimedia Inc.

OLYMPIC MEDICAL CENTER, USA

Samsung Cloud Displays Unlock Efficiencies for Physicians and Accelerate Electronic Health Record Adoption

“The success of this project has led us to plan a large-scale deployment of Samsung zero-clients throughout all of Olympic Medical Center’s divisions by next summer.”

– **Sean Johnson**, IS Manager

Gangbuk Samsung Medical Center, Korea

Mobile EMR Solution for Excellence in Care:

- A mobile medical information system using GALAXY Tab
- Fast and efficient implementation with user feedback incorporated
- Informed decisions, efficient care and improved satisfaction for patients

Solution: Samsung GALAXY Tab and Mobile EMR Solution

Deliver premium-quality, patient-centric care with seamless efficiency

Best practices

Hospitality Display Cases

Over 12k pcs* deployed in Hospitals across Europe:

- Sanitas Hospitals, Spain
- Hospital Clinico San Carlos de Madrid, Spain
- Szpital Onkologiczny, Poland

Large Format Display Cases

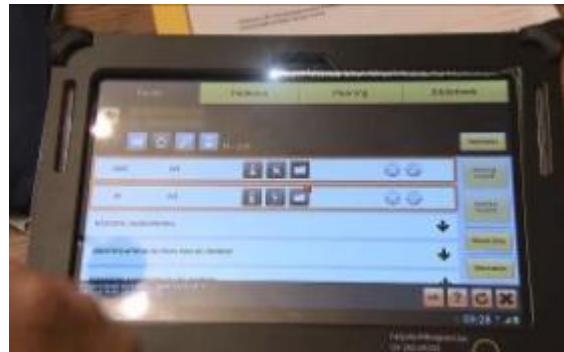

More than 5k pcs* installed in Clinics and Hospitals around Europe:

- Rowlands Pharmacy, UK
- Instytut Fizologii Patologii Stuchu, SEPOL
- Sanitas Hospitals, Spain

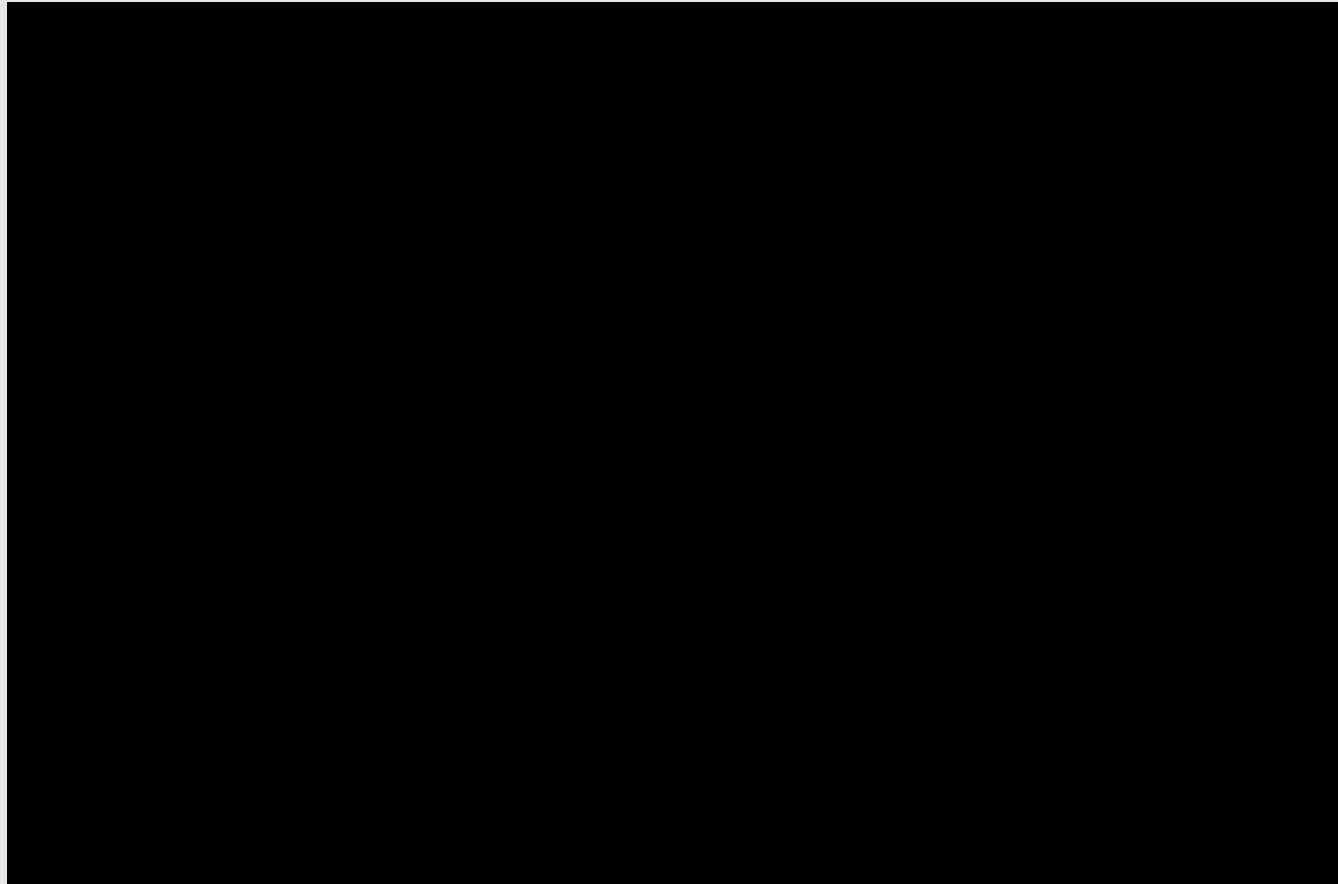

Mobility in Healthcare

More than 18k pcs* deployed in projects across Europe. Most recent implementation in **Belgium**:

Wit Gele Kruis, a healthcare provider in Belgium, equipped its **mobile nurses** with Samsung tablets to help them **work more efficiently, save time and money, and reduce inaccuracies** in data and processes.

* Projects deployed in Europe during 2011 – 2014

High-Definition Diagnose Display

Samsung SMART Signage delivers **clear, high-definition images**, enabling clinicians to diagnose patient conditions more accurately to determine the best course of treatment.

Staff can automatically **display and update surgical schedules** to simplify surgery preparations. Plus, intuitive features minimize operational complexity so physicians can focus on delivering premium patient care.

Thank you!
