Why should you listen to me?

- “If I was half as good at applying myself what I say, I’d be 10 times more successful and happier”
- “Experience is something you get right after you need it” So always useful to learn from other people’s mistakes.

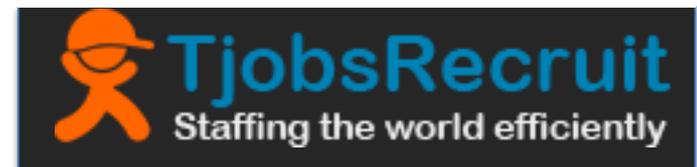

How I got the initial XP & \$ for RO

- Founded European office & shareholder in Livra: 10 million \$ exit
- Founding team & (small) shareholder in lastminute.com: 1,1 Billion \$ exit
- Didn't buy a nice house in the Bahamas to swim with the wildlife or move to the Valley (my first mistake)

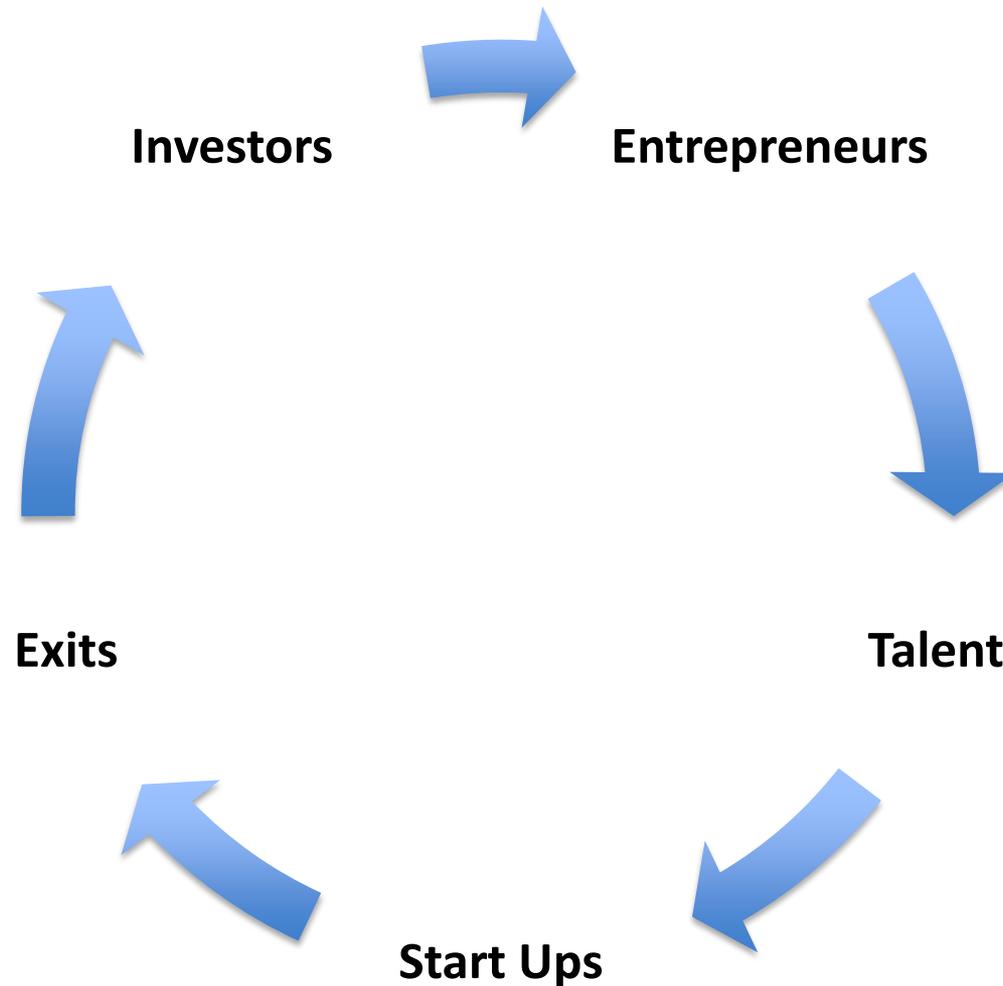

Invested & raised in RO portfolio: 7,5 m€

- Direct: 2,2 million €

What do we have after 8 years?

4 High Potential Start Ups in portfolio

6 inv €

2 ☹️

4?/😊

200 jobs created in RO digital sector

7 entrepreneurs incubated that went on to create half a dozen new start ups

A dozen foreign investors attracted

3 VCs

9 Angels

To Much time in flights like this

- Build your start up & invest where you live if you can

No exits yet ☹️

What I would have done different

- More smaller investments to accelerate eco-system, spread risk, help more entrepreneurs
- Taken smaller early exit opportunities (to do the above)
- Invested in almost all incubated entrepreneurs that left
- Let go or better surround entrepreneurs that were under-performing faster and sooner
- Bet less on the local market (to small & slow to grow)
- Bet more on moving Ro talent out of Romania to attack international markets?

Some of the ones I missed

brainient

Dangers for Ro digital sector

- Weak local market
- Lost the cost advantage (in Bucharest)
- Skill set did not grow as fast as costs
- Appeal to go abroad to succeed
- 1 leg missing, very few Exits (big or small)

Opportunities

- Weak local market, propeller to go out
- Foreigners still setting up dev centers
- Better eco-system, more:
 - Entrepreneurs XP
 - Events: (Venture connect, this conference, Bucharest Hub etc.)
 - Investors: More angel investors an some VC

Conclusion

- I am a small angel investor all I did was lay one of the first

- But a fo then

- The con t . That

- Go es for

- oth as for world
- a be

- Money is a nice reward but its not the only reward
